

# Cocktail Freezers

## Model 876B and 877B

Discover the fast, easy, portion controlled, labor saving way to serve frozen daiquiris, margaritas, pina coladas and many more specialty cocktails – with profits up to 80% per drink.

## Special Features

### Two Models to Choose From

The high production capacity Model 876B (permits serving by the pitcher)...or the medium capacity Model 877B.

### Takes Only Minutes For Initial Freezedown

With a fast freeze process that produces tiny, uniform ice crystals, resulting in a better tasting, exciting, zesty cocktail.

### Dispense a Variety of Great Tasting Cocktails

From either freezer by using a neutral base then adding liquor...or pre-mix, pour mix into the freezer and dispense ready-to-serve frozen cocktails.

### Both Models

Are 115 volt cord connected, air cooled self contained.

### Easy to Own, Simple to Operate

Minimum of maintenance and doesn't require daily cleaning.+

### Sturdy Construction

Stainless steel panels, drip tray, freezing cylinder, beater and mix hopper...welded angle iron frame.

### Reliable

Consistent torque control system – a simple adjustment gives the desired product thickness and automatically maintains consistency.
